

A place to be a horse - No stress, beautiful paddocks, management that doesn't just look – but see and understand the things that sensitive thoroughbreds need.

All yards and stables at Springton have been specifically designed and built with the safety of your horse in mind. We have used all post and rail fencing throughout the farm.

Springton is set just 20km east of Rockhampton on the Yeppoon Road and enjoys cool sea breezes across the paddocks from Keppel Bay. We can give your thoroughbred the natural nutrition and environment to thrive on.
